OUR PRINTING AND PRODUCTION SERVICES

Screen Printing
The 'traditional' method of printing where ink is pushed through a stencil onto fabric. **Great for** Bold designs.

Direct to Garment Printing
Digital printing method where designs are digitally printed onto garments. **Perfect for** Intricate designs and small batches.

Heat Transfers
Applying designs onto garments using heat, directly from a prepared film. **Offers** *versatility and vibrancy for a variety of fabrics.*

Embroidery
Stitching designs onto fabric via needle and thread, **Provides** *a timeless and textured finish for logos and designs.*

Garment Sourcing
We can source blank garments at trade pricing. **Ensures** the best canvas for printing.

Garment Finishing
Final touches and detailing to garments post-printing such as neck labels and swing-tags, **promising** professional presentation.

Branded Products
Customised items such as mugs and tote bags, which is an **opportunity** as effective promotional tools and merchandise for business.
